I am a full stack developer that loves what I do. A self motivated individual with a desire to keep growing. I'm a fast learner that can work under high pressure and deliver results.

PROJECTS

UI Wars - http://157.230.139.191:5060/#/ ⬈
- .React, Redux, Node.js, Express.js, PostgreSQL, Firebase, CSS, SASS , Material-UI, Chart.js
- A web application where developers of all skill levels can come to practice their UI skills and compare them to others
- Utilized Chart.js for real time data display of how many users completed specific challenges and which tools were used.
- Shows which user completed a challenge, a picture of their completed challenge, and link to github.

instaPlan - instaplan.xyz/ ⬈
- React, Amazon S3, Redux, Node.js, Express.js, CSS, SASS , Reactstrap, PostgreSQL
- A web application where, based on a user's location, will display events near the user as well as events just for that day.
- Utilizes the Google Map API for user's location and Eventbrite API to pull events.
- Users can also create an event that will be shown to other users in the area.
